Utah Association of Public Charter Schools, and the Utah State Charter School Board have teamed up with Dr. Brian Carpenter to offer your school this unique training opportunity. Every charter school board that intends to plan for its success must begin mastering what Dr. Carpenter calls “the seven pillars of successful charter school board governance.”

1. The board’s purpose
2. The board’s accountability & authority
3. The board’s own procedures
4. The board’s policies
5. The board’s focus
6. The board’s self-development & assessment
7. The board’s annual strategic calendar

This training event emphasizes the practical application of these seven pillars and more.
